- Connectivity: USB-C, Mini HDMI
- Highlight: 300cd/M2 Portable Monitor Dual Screen,
280cd/M2 Portable Monitor Dual Screen,
Portable Design Monitor Dual Screen

Product Description

Product Description:

The Portable LCD Screen Monitor features a 10 Point Capacitive Touchscreen that allows you to interact with your display in a natural and intuitive way. This touchscreen is highly responsive and accurate, making it ideal for a wide range of applications, from gaming to graphic design.

This External Portable Screen Display also features a high brightness level of 280-300cd/m2, which ensures that your content is displayed in vivid and vibrant colors, even in bright environments. This feature makes it ideal for outdoor use, as it reduces the glare and reflections on the screen.

The Portable LCD Screen Monitor has a contrast ratio of 1200:1, which provides deep blacks and bright whites, making your images and videos look more lifelike and vibrant. This feature is especially important for people who work with images and videos, as it allows them to see the true colors and details of their work.

The Portable LCD Screen Monitor is a Touch Screen model, which means that it is highly versatile and can be used for a wide range of purposes. Whether you need it for work or entertainment, this monitor is the perfect choice for anyone who needs a high-quality display on the go.

Applications:

The dual-screen laptop monitor is a touch screen model that provides a 10 point capacitive touch feature, which is highly responsive with a response time of 20ms. The touch screen feature adds convenience and flexibility to the user's work, allowing them to interact with the screen in a more natural and intuitive way.

The brightness of the portable monitor dual screen is 280-300cd/m2, which is bright enough to work efficiently in any lighting environment. The power supply of the monitor is through USB-C, which is convenient as it does not require an external power source.

The GreatCQ Z1506-T01 dual-screen laptop monitor is suitable for a variety of applications, including business presentations, gaming, video editing, and creative design work. The dual-screen laptop monitor can be used with any laptop, making it an excellent choice for professionals who require an extended screen for their work.

The portable dual-screen laptop monitor is a perfect fit for those who frequently travel for work and require an extended screen for their presentations or work. The product is available in a carton box, with a minimum order quantity of 1, and delivery time of 5-8 working days. Payment can be made through T/T, AliPay, or PayPal, providing you with various payment options. GreatCQ Z1506-T01 has a supply ability of 1000 pcs/day, making it readily available for bulk orders. The product is an excellent investment for professionals who require an extended screen for their work and do not wish to carry a bulky monitor around.
