Product Description

Product Description:

This Dual Screen Laptop Monitor is designed to enhance your productivity and improve your multitasking capabilities. With a screen size of 15.6 inches and an aspect ratio of 16:9, it provides a clear and detailed view of your work. The brightness of the monitor ranges from 280-300cd/m2, ensuring that you can use it comfortably in different lighting conditions.

The Portable Monitor Dual Screen is powered by USB-C, which means that you can connect it to your laptop or computer easily without the need for an external power supply. The USB-C port also enables you to transfer data and charge your device at the same time, making it a convenient feature for those who are always on the go. This Portable Computer Display is compatible with both Windows and Mac, making it a versatile accessory for professionals and students alike. You can use it to extend your desktop display, mirror your screen, or even as a standalone monitor for your gaming console or streaming device.

The response time of the Portable Monitor Dual Screen is 20ms, ensuring that there is no lag or delay in the display of your work. This feature is particularly helpful for those who work with graphics or videos, as it allows for a smooth and seamless viewing experience.

If you are looking for an External Dual Monitor Screen that you can take with you wherever you go, the Portable Monitor Dual Screen is your best bet. It is lightweight, compact, and easy to set up, making it a great investment for anyone who values productivity and efficiency.
