Applications:

The Portable Monitor Dual Screen is easy to set up and connect to your laptop or computer. It can be used as a second screen, which means you can have multiple windows open and work on different tasks simultaneously. This feature is especially useful for online meetings, presentations, and research work. The dual-screen laptop monitor can also be used as a primary display for your computer, making it an excellent choice for people who travel frequently and need a larger screen to work on.

The Portable Monitor Dual Screen is a versatile product that can be used in different scenarios and occasions. It is perfect for professionals who need a larger screen to work on while on the go. For instance, graphic designers can use it to edit their work while traveling, and business professionals can use it to present their ideas to clients. Students can also benefit from this product, as it provides them with a larger screen to work on their assignments and research work.

The GreatCQ Z1506-D03 Portable Monitor Dual Screen is made in China and has been certified by CE, FCC, and RoHS. It has a minimum order quantity of one and can be delivered in 5-8 working days. The product can be paid for using T/T, AliPay, and PayPal. It comes in a carton box and has a supply ability of 1000 pcs/day. The Portable Monitor Dual Screen is lightweight and compact, making it easy to carry around. It is perfect for people who work remotely or travel frequently. The monitor's brightness of 280-300cd/m2 ensures that the display remains clear and visible even in bright environments.
